Youth sessions can focus on any area or skill mentioned on our [services list](#). Please note that the lower the number of sessions, the less customized the services will be.

Guardian sessions will be used to discuss observations, insights, and recommendations made by a Keymaker practitioner during the youth sessions. These sessions can also be used by the guardian to ask any questions they may have about their youth, or about future services.

Long-term Partnership

For clients interested in a more customized, thorough program, Keymaker creates a 10-phase partnership unique to the youth. We find that our long-term partnerships have the highest satisfaction rates and ability to achieve the desired outcomes set by the youth, guardian(s), and Keymakers.

Each phase has a unique set of goals, hours dedicated to both direct and indirect services, and types of sessions. Phases do not have predetermined timelines; you will remain in each phase until you and your Keymaker agrees that mastery has been achieved.

Long-term partnerships offer the lowest price per session for youth and guardian sessions.

Stina (STEE-nah) Borth

She/Her • Founder & Learning Support Specialist

- BA, Spanish & Teaching English as a Second/Foreign Language
- MA in Special Education

"Stina is an amazing tutor. She comes with a ton of different activities to help my daughter learn, and if my daughter can't get a concept, she will switch to another that is more attuned to her learning style to help her grasp it. **I have been so impressed by my daughter's progress since she started working with Stina!**"

"Since finding out my child, and subsequently myself as well, we're neurodiverse, the single most successful tool we've had is Keymaker and Stina. She's a fierce advocate, excellent role model and teacher, and incredibly caring. **I can't recommend her partnership more strongly.**"
